Directions for use: Always wash your hands thoroughly before applying Epaderm Ointment, which can be used in three ways:

Emollient: Apply to the skin as often as required.

Skin cleanser: Use as required when washing or in the shower.

Bath additive: Melt a little Epaderm Ointment in a container of hot water and shake to mix thoroughly. Allow to cool and add to the bath. After bathing, gently pat skin dry with a soft clean towel.

Made in UK

180w x 46h

Warning: Do not smoke or go near naked flames - risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard. Washing clothing and bedding may reduce product build-up but not totally remove it.

Precautions: Do not use Epaderm Ointment on patient and/or user with known hypersensitivity to the ingoing materials / components of the product.

If your condition worsens or you experience any undesirable effects, stop using Epaderm Ointment and discuss with your health care professional.

When used in the bath or shower please be careful as this will make the bath/shower surface slippery. For external use only. Avoid contact with the eyes. Do not use if the seal is broken or after the expiry date.

Storage: Store below 25°C in a dry place. Replace lid after use. Keep out of the reach of children. Disposal should be handled according to local environmental procedures.

Ingredients: Liquid Paraffin Ph. Eur., Cetomacrogl Emulsifying Wax BP., (contains Cetostearyl Alcohol and Macrogol Cetostearyl Ether 22), Yellow Soft Paraffin BP. Epaderm is a registered trademark of Mölnlycke Health Care AB.

Other information: If any serious incident has occurred in relation to the use of Epaderm Ointment, it should be reported to Mölnlycke Health Care.

¹SLS is an abbreviation for Sodium Lauryl Sulphate
