

Media backgrounder: Granudacyn® Wound Wash Solution - Cleanse with confidence

Now available in the US, Granudacyn® Wound Wash Solution, is a biocompatible, non-cytotoxic wound cleanser formulated to safely clean, irrigate, and moisten a wide range of acute, chronic, and contaminated wounds. The solution is FDA 510(k) cleared and has been shown to be safe and effective for wound cleansing.¹

Granudacyn® can be used under clinician supervision for cleansing, moistening, debridement, and foreign-material removal in wounds such as: stage I–IV pressure injuries, leg and foot ulcers, post-surgical wounds, first and second-degree burns, donor and graft sites.

Benefits of Granudacyn:

Granudacyn Wound Wash Solution offers:

- **Safe, biocompatible wound cleansing,**
Non-cytotoxic and non-irritating to wounds and surrounding skin.²
- **Hypochlorous acid/Sodium Hypochlorite preservation**
Helps prevent microbial growth in the solution for up to 60 days after opening.³
- **Ease of use and flexibility**
28-month shelf life.⁴
Bottle formats: spray cap, pour bottle, and spikeable instillation bottle.
- **No need for neutralization or rinsing**
Enables streamlined and efficient wound bed preparation.

Mölnlycke comment

“At Mölnlycke, we are committed to delivering solutions that strengthen clinical confidence and improve the daily realities of wound care,” said Lauren Treeger, VP of Strategic Marketing-Wound Care Americas. *“Granudacyn® Wound Wash Solution advances that mission by offering a safe, stable, and effective cleanser they can rely on for a broad range of wound types. It reflects our dedication to elevating care standards and equipping healthcare professionals with comprehensive solutions that truly make a difference in patient outcomes.”*
