

# Mölnlycke® Portal

the digital tool for  
healthcare professionals

## Manage all your ProcedurePak® needs from one place

Your organisation can save time, money and avoid waste with surgical procedure packs. Now you can also manage all your ProcedurePak® needs from one place.

Your team can use the Mölnlycke® Portal to easily build, analyse, change and estimate pack purchases - with the support of detailed statistics and reports.

### Control

Create, modify and forecast your packs

Actively manage your packs by:

- Get suggestions on optimising your packs for maximum value
- Share pack information and make changes easily
- Check on relevant component information
- Follow up on your statistics

### Transparency

All your pack information in one place

With the Mölnlycke Portal you can:

- See all the specifications and information of your packs
- Get optimisation suggestions
- View all available pack components
- Follow your orders and tracking information
- Export reports and pack lists to Microsoft Excel

### Efficiency

Facilitating pack management and collaboration

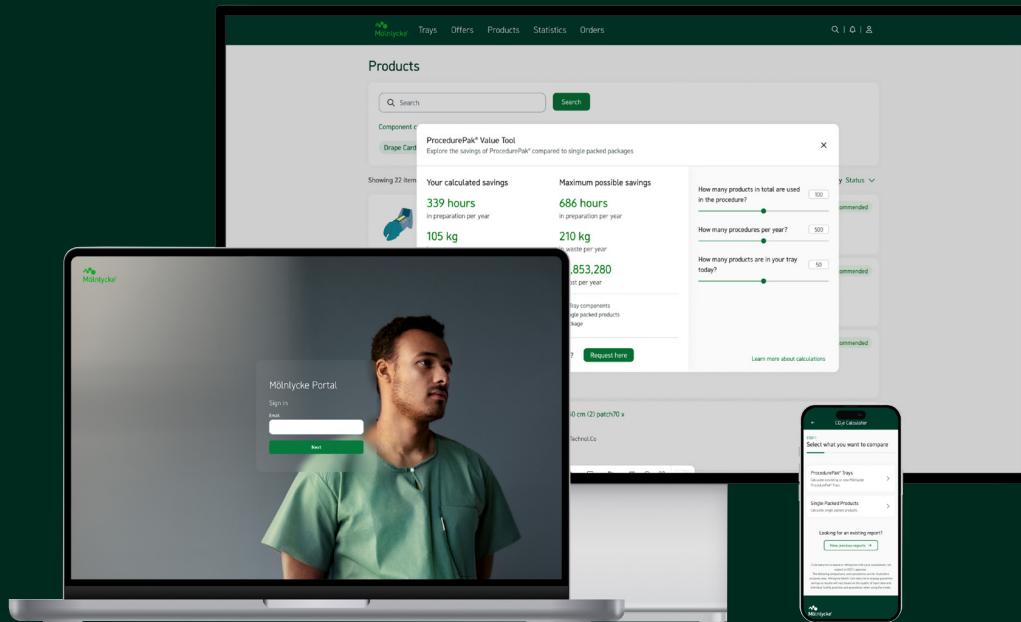

Your efficiency gains by using the Mölnlycke Portal:

- Building the most efficient packs with the right components
- Using the Mölnlycke reference packs as suggestions for maximum efficiency
- Approving pack changes in a simple and easy process
- Clearly seeing the results of time savings and waste reduction

# Mölnlycke® Portal

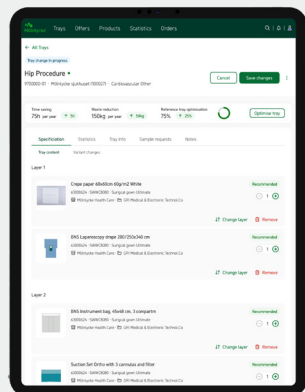

the digital tool for  
healthcare professionals

Mölnlycke® Portal is in constant development towards your needs. A digital tool for managing packs and products to have control, transparency and efficiency in ways of working.

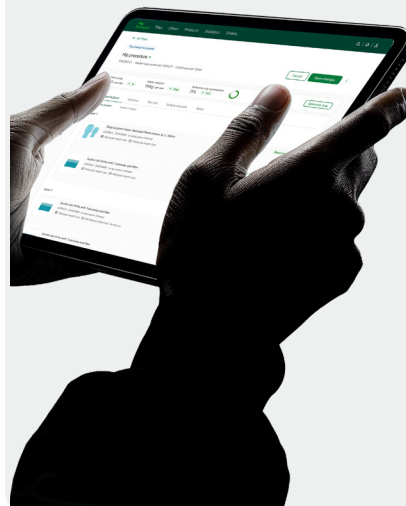

## View and manage all your packs

In the tray overview page you can see the details and specifications of all your packs. For each pack you can see what it contains, follow changes, see statistics and order information. You can also optimise your packs to make them even more efficient.

## All available pack components

In the products overview, you will see all available components that can be added to your trays. You can search, filter on category, intervention or supplier. You can easily see what products that are recommended and sustainable, as well as more detailed product information.
