

Excellence in Healthcare

Roundtable Discussion Series

The goals of healthcare leaders and providers are always evolving. Designed to support you in achieving better clinical and economic outcomes, Mölnlycke's discussion series brings the latest industry topics right to you and your team.

Welcome to the roundtable.

Better Outcomes Begin Here™

INSIGHTFUL EXPERTS. INDUSTRY LEADERS.

Follow them through a series of evidence-based discussions centered around critical healthcare topics:

Quality & Risk

Supply Chain & Procurement

Utilization & Standardization

It's all about you.

We've handled all the details and are ready to guide you through building interactive discussions with topics that matter to you.

Build your roundtable discussion series in 3 simple steps.

1

REVIEW TOPICS AND SPEAKERS

Decide which topic(s) would be most impactful for your team.

2

CUSTOMIZE YOUR EVENT

Select one to three topics for your virtual series.

3

LET US DO THE REST

We'll take it from here.

Navigating Quality Measures: Mitigating Risk in Healthcare

IDEAL FOR: Hospital and Clinical Administrators, Quality Improvement Teams, Risk Management Teams

Dive into critical strategies and best practices for providing high quality care while navigating risk management. This round table discussion will also cover quality metrics, regulatory requirements, and how to implement quality improvement initiatives while enhancing patient safety.

Dr. Charleen Singh

Ph.D., M.B.A., M.S.N./ED, F.N.P.-B.C.,
CWCN, CWCNF, CNE, R.N.

Dr. Charleen Singh is the Director of the Doctor of Nursing Practice – Family Nurse Practitioner Program at UC Davis's Better Irene Moore School of Nursing. With experience in acute and post-acute care, she understands the success of patient outcomes and satisfaction. Her clinical expertise includes wound, ostomy, and continence care, specializing in surgical services.

KEY TAKEAWAYS:

Effective risk management strategies

Implementing quality improvement initiatives

Innovative approaches to enhancing patient safety

Supply Chain Economics: Leveraging Product Selection for Procurement Success

IDEAL FOR: Supply Chain and Procurement Leaders, Hospital and Clinical Administrators, Operations Managers

Learn how strategic product selection can optimize supply chain operations, lower costs, and improve efficiency while delivering excellent patient care. Learn best practices for evaluating and selecting products, understanding market trends, and using data and analytics to make procurement decisions.

Dr. Kimberly DiSanto

DNC, RNC

Dr. Kimberly DiSanto has been a nurse for over 34 years and has served in both Clinical and Supply Chain roles. She is currently the Director of Nursing, Children's Oncology and Pediatric ICU at Robert Wood Johnson University Hospital.

KEY TAKEAWAYS:

Strategies for procurement and cost reduction

Using analytics to inform procurement decisions

Clinical and procurement partnership for product selection

Maximizing Value: Standardization and Utilization Strategies in Healthcare

IDEAL FOR: Healthcare Executives, Administrators, and Operational Leaders

This round table discussion will highlight how standardizing processes, practices, and protocols can lead to improved patient outcomes, operational efficiency, and cost savings. Learn about innovative strategies for optimizing resource utilization, reducing variability, and driving value-based care.

Dr. Lisa Grubb

DNP, MSN, BSN, RN, CWCN (Lean Certified)

Dr. Lisa Grubb is a nursing executive with nearly two decades of experience and expertise with direct and supervisory roles in various facets of health care operations, leading teams and organizations toward sustained excellence in quality, operations, finances, and growth.

KEY TAKEAWAYS:

Strategies for optimizing resources and reducing waste

Implementing value-based care models

Best practice tools for operational efficiency improving patient outcomes

Better outcomes begin with better support.

Partnering with Mölnlycke® is a step towards
better outcomes for your staff, patients,
and bottom line.
